ARTIFICIAL INTELLIGENCE

Future plan is to make yours obsolete

Project Overview

The Therapeutic Loop Inter-personal Intelligence
Bio-Frequency Signaling™ System are tools
AI is unable to replicate with clients

AI has accumulated universal text information at light speed
advancing AI app communication beyond human capabilities and
dissolving careers before industries eyes

Problem Statement 1

AI designed for rapid communication with once clients adopting the ability to understand and interact in the hierarchical methodology education with predictability

Programming apps with the abilities Mental Health Professionals were trained to do at the click of a button from the comfort of the users home...

Problem Statement 2

Without Changes the Mental Health Industry may evaporate as in the UK where AI apps are taking the forefront

AI FORECASTS

EXPERTS FORECAST

- AI advancing daily in the diagnostic industries
- AI can guide clients on external issues, suggest diagnoses for physician review, ultimately leading to outcomes like medications, employment leave, or support services.
- AI is quickly becoming users trusted personalized voice activated Life Coach, therapist and more
- No long waits
- Available on demand to interact on daily events, personal issues, provide artificial intelligence and interaction.

OUTCOME

- With increased financial strain and workplace demands; populations are estimated to continually gravitate into the acceptance of downloading AI Therapy apps to speed their wait time. This pathway allows the client to reduce time loss from work, money restraints, workplace labelling and all without leaving the comfort of their personal space.

AI Methodology

Data Collection

Gather relevant data from diverse universal sources.

Preprocessing

Unbias, Clean, normalize, engineered global data related specific to the client

Model Selection

AI OFFERS without micro bias, immediate response to diagnostic data and or life coach relationships with your once client,

While AI is collecting Data

Professionals can learn to articulate dimensionally with the use of The Therapeutic Loop Interpersonal Intelligence -Bio-Frequency Signaling™ Tools to connect in with the client's internal neural pathways addressing issues from a cellular level versus external behaviors of auto-pilot

Learn experience the tools AI is unable to replicate

Avoid the competition of AI

Learn to interact using TTL Inter- personal - Bio-Frequency Signaling™ Tools with your clients you studied years for and get out in front of AI apps replacing the mental health industry.

1. Professionals challenge today is how to achieve client retention as rapid change sweeps the globe
2. How to maintain a career in Mental Health
3. Adopt new techniques to work differently with clients as their needs evolve
4. Support the industry to ultimately safeguard ROI's in this new era of AI or risk mirroring many other professions and careers suffering massive loss and or
5. Risk becoming obsolete as in other countries.

Get out-front of AI apps or be left behind

Set yourself apart from AI by addressing the #1 complaint of today's clients. Work internally versus externally.

EDM's have been introducing the science of internal cellular frequencies with the highs and drops in the beats! The Raves grow larger as the masses are awakening to what feels good and what does not. The days of labeling and medication on an endless hamster wheel of healing has changed to: acquiring the fixes, are fastly becoming the ways of the future leaving the past behind...

The Therapeutic Loops IPI-BFS™ System is the Leading Trainer in the Mental Health Industry, combining mental health, science and whole-body cellular pathway fixes. Therapists will adapt or be left in the past in this new era.

All our participant graduates receive The Therapeutic LOOP IPI-BFS™ Training and Practitioner Certifications.

Model Development

Evolutionary Metrics

Sustain your career, your profession

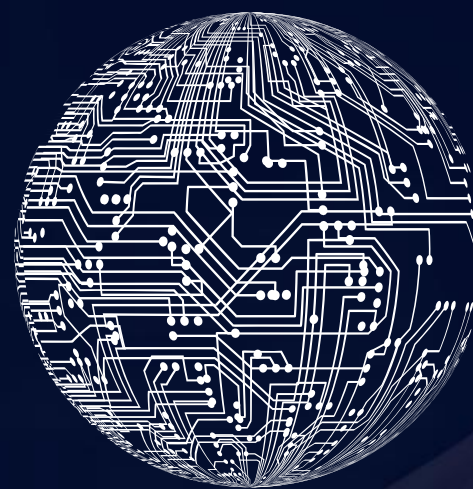

The professional will learn where feelings are versus the traditional hierarchal education modalities in training students to **believe thinking is the reflection of feelings**. The participants will learn the difference first- hand through experiencing the IPI and BFS tools prior to utilizing the techniques in their practice. The tools will allow for the professional to assist their clients how to reprogram cellular information and pathways versus being medicated to subdue the body senses or attempts to retrain thinking. This process affects the clients entire being by the reprogramming of cellular held information and clearing the neurological pathways. Paving the way for a clearer focus and ability to articulate with increased clarity of present-day information stored in the information center of the brain. Creating new healthier recall of auto-pilot responses versus what was once a painful trigger.

The Therapeutic Loop™ offers an array of tools for mental health practitioners to offer clients to enhance life for ongoing success versus identifying labels that ultimately thrusts a client onto the pharmaceutical hamster wheel by masking their core issue[s] with medication[s].

Result and Impact

Increase client success, dedication, gain client recommendations, retain ROI's, and grow into these changing times with confidence.

The Therapeutic Loop™ guarantees all our graduate participants Level One Therapeutic Loop™ Training Certification and upon completion of Level Two the The Therapeutic Loop™ Practitioner Certifications
